# Your way. The Miller Way.

Given how much time your family spends in the bathroom you deserve something extra. As a timeless and beautiful design, just like your family, it becomes more beautiful with age.

Added care is given to the selected materials and finish, along with all the little details that make the products so beautiful. And not least, the choice that will give you the bathroom you really desire.

## Our products

Bathroom Accessories **page 4**

We believe that it is important your whole family enjoys dealing with us, as we ourselves are a family business that for five generations has delivered quality, authenticity and tradition.

We also believe that your family deserves a good quality of life, even in the bathroom. We call it the Miller Way.

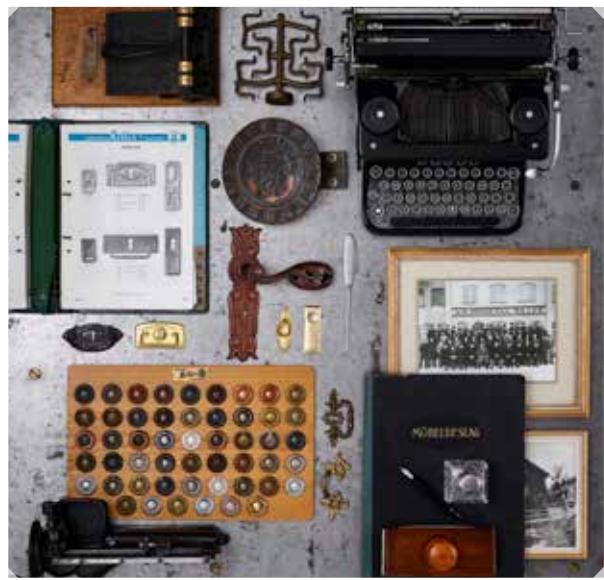

Bathroom Furniture **page 64**

## Care in every detail

We know the surface is important in bathrooms. That's the first thing your eyes see when you enter the room. A beautiful wall cabinet, the clean lines of a vanity unit, an elegantly shaped porcelain sink creates that special first impression. But it's once you get to know your bathroom a little closer you will appreciate our attention to detail. Beneath the surface there are all those little details that become more important over the years.

We select wood with beautiful veining and finish with hard wearing, protective lacquer. We are careful to design drawers and doors which always open and close smoothly. We have thought about the extra storage that will be practical and functional. Everything we design is for a long lasting friendship. This is when the small details combine with the beautiful surfaces to give you a special bathroom – the Miller Way.

## Our History

In 1903, two brothers, Justus and Fritz Miller started casting furniture fittings in little Printzeryd in Sweden. They were skilled craftsmen who took great care with the fittings they supplied to make sure that they were of the highest quality.

Today, over 100 years later, that same philosophy stands and with the business still under the Miller's ownership, and the family remains fully committed to the production of high quality, visually stunning products which stand the test of time.

# Bathroom Accessories

The perfect way to finish your bathroom is with the addition of one of Miller from Sweden's beautiful accessory collections. Thoughtfully designed to complement our furniture, there are many stylish and innovative solutions to choose from.
