FINE BATHROOM INTERIORS

BATHROOM ACCESSORIES AND FURNITURE 2025

Your way. The Miller Way.

Given how much time your family spends in the bathroom you deserve something extra. As a timeless and beautiful design, just like your family, it becomes more beautiful with age.

Added care is given to the selected materials and finish, along with all the little details that make the products so beautiful. And not least, the choice that will give you the bathroom you really desire.

We believe that it is important your whole family enjoys dealing with us, as we ourselves are a family business that for five generations has delivered quality, authenticity and tradition.

We also believe that your family deserves a good quality of life, even in the bathroom. We call it the Miller Way.

Care in every detail

We know the surface is important in bathrooms. That's the first thing your eyes see when you enter the room. A beautiful wall cabinet, the clean lines of a vanity unit, an elegantly shaped porcelain sink creates that special first impression. But it's once you get to know your bathroom a little closer you will appreciate our attention to detail. Beneath the surface there are all those little details that become more important over the years.

We select wood with beautiful veining and finish with hard wearing, protective lacquer. We are careful to design drawers and doors which always open and close smoothly. We have thought about the extra storage that will be practical and functional. Everything we design is for a long lasting friendship. This is when the small details combine with the beautiful surfaces to give you a special bathroom – the Miller Way.

Our History

In 1903, two brothers, Justus and Fritz Miller started casting furniture fittings in little Printzeryd in Sweden. They were skilled craftsmen who took great care with the fittings they supplied to make sure that they were of the highest quality.

Today, over 100 years later, that same philosophy stands and with the business still under the Miller's ownership, and the family remains fully committed to the production of high quality, visually stunning products which stand the test of time.

Bathroom Accessories

The perfect way to finish your bathroom is with the addition of one of Miller from Sweden's beautiful accessory collections. Thoughtfully designed to complement our furniture, there are many stylish and innovative solutions to choose from.

A good morning. And an equally good night.

The morning is full of anticipation.
At night it is filled by a relaxing calm.
The bathroom has an important role
for all - for both the large and the small
family. Therefore it is important that the
bathroom spreads that extra feeling of
comfort that makes us feel good.

But we are all unique, with different tastes
and needs and desire a bathroom that is
adapted to our own personality. Freedom
of choice from our wide range of bathroom
furniture and accessories gives you the
chance to realise your own dreams.

Higher standard Guaranteed

It's difficult to explain the feeling, when something feels really good inside and out. We constantly work on improving the small details which ultimately makes our bathroom furniture better.

Details that might not always be visible but after years of use the feeling becomes obvious. Miller offers a guaranteed higher standard without adding extra. Room for feelings – the Miller Way.

Open and close to feel the quality. We use only the best rails and fittings with our furniture.

Edges and fronts of both drawers and doors are of 19 mm thickness. This gives a solid and longer lasting impression.

Mirror Cabinets and Mirrors in several sizes with efficient, elegant and dimmable LED lighting.

Vanities with drawers have a larger bottom drawer and a slightly lower top drawer. It's both practical and more visually beautiful than having two equally size drawers.

The hinges on the double sided mirror doors are fully adjustable in all directions and soft closing.

Genuine ceramic of highest quality. See page 126 for several options of full cover basins.

Conscious choices of material give you a sustainable product with the best finish.

Fully extendable, soft closing drawers. Dividers made from solid oak. Anti-slip mats and straight insides gives you optimal storage.

Plenty of options for optimal storage.

Centre divider in our bathroom cabinets gives stability and flexibility when it comes to the placement of the shelves.

DETAILS

Centre divider in wood for stability and a more flexible placement of the shelves.

Light shines both forward and inward on cabinets.

Control the brightness with a touch sensor. Our new Bathroom Cabinet memorises the latest desired brightness when switched on and off.

A BRIGHTER FUTURE STARTS IN YOUR BATHROOM

Linear LED is energy saving yet very powerful. The vertical lights reduce shadow casting and gives you the perfect mirror reflection.

The built in touch sensor enables you to control the amount of light you want – and thanks to the built in memory the Linear LED remembers your preference until next time it's turned on.

Functional, practical and beautiful – the thin LED light bars shine both forward and inward on the cabinets, making sure you have a bright time in the bathroom.

The lighting is integrated in the sides of the bathroom cabinets and measures 16 mm x 16 mm. Matching Down Light DL2.

Classic Square

Classic Arch

CLASSIC CERAMIC

The series is crafted by hand in England, giving the products a higher density, meaning they are more impact resistant. The ceramic itself has a glossier, deeper and finer, almost glass-like surface.

Classic Arch basins have overflow holes in the shape of three lines. **Classic Square** basins have overflow holes in the shape of three small circles.
